PRESS RELEASE: FOR IMMEDIATE RELEASE

Canada's First "Carbon Zero" Equestrian Farm is located in Ajax!

March 5, 2008

The Ajax Riding Academy Ltd. (TARA) at 2677 Audley Road North in Ajax is very pleased and excited to announce the activation of the largest solar photovoltaic (PV) system in Durham Region. The ten kilowatt system (10kW) solar system produces enough power to operate all the electrical requirements of TARA with enough spare capacity to supply other homes and businesses in the area.

The ribbon cutting ceremony for the PV system will be March 18th, 2008 at 3:00pm and Mayor Steve Parish of the Town of Ajax will cut the ribbon on this new Green Energy system. We are very pleased to be the first equestrian facility in Canada to develop a "carbon zero" environmental footprint and we hope that others will follow our example.

The solar design and installation, energy efficient lighting system and automation system were designed by Mann Engineering Ltd.
